# A Joint British Association of Day Surgery & HCUK Conference

# Day Surgery Urology

Wednesday 4th October 2023

Virtual Conference

Significant, national variation in the delivery of day case urological surgery was identified prior to the Covid-19 pandemic and subsequent to this waiting lists have risen to an unprecedented level. Maximising urological surgical day case performance is a major part of the NHS Elective Recovery programme, instigated to tackle this huge backlog in care.

This virtual, one-day conference aims to provide tools to improve your day case rates for many urological procedures and see how experts from BADS and in specialist urology fields approach and implement their day case pathways and maximise the day surgery numbers. An update from GIRFT experts will allow you to see the national picture from their point of view.

BADS recommends a multidisciplinary, team approach and you will hear from nurses, surgeons and anaesthetists about how to work together and use expert practice to increase safe day surgery delivery efficiency.

This includes:

- Management of bladder cancer (TURBT pathways)
- Bladder outflow obstruction surgery – moving TURP to day case pathways
- Day case management of ureteric stones
- Day surgery focussed anaesthetic approaches to urological surgery
- Pitfalls and obstacles to overcome – how 'they' did it
- The conference will also describe how to move specific procedures to an outpatient pathway and the role of specialist nurses
- Novel approaches to managing post-operative urine retention and attaining discharge for day surgery patients

Follow the conversation on twitter #BADSuology

## About the British Association of Day Surgery (BADS)

The British Association of Day Surgery (BADS) is a multi-disciplinary organisation constituted of surgeons, anaesthetists, nurses and allied healthcare professionals, including operating department practitioners, anaesthetic practitioners, perioperative assistants, physiotherapists and hospital managers.

It is committed to promoting excellence in day surgery via its educational activities, publications and collaborations with other organisations including Getting it Right First Time and The Centre for Perioperative Care.

Membership benefits include free access to our online handbooks, advice sheets, day surgery directories and previous annual conference presentations. Members also receive discounted fees for the BADS Annual Conference and HCUK/BADS virtual conferences and are eligible to apply for the BADS Educational Grant and complimentary membership of the International Association of Ambulatory Surgery. They may also submit unlimited publications to the Journal of One Day Surgery without incurring article processing fees.

Further information is available from the BADS website: [www.bads.co.uk](http://www.bads.co.uk)

## 10.00 Chair's Welcome: Optimisation of the day surgery pathway

### Dr Rachel Tibble

Anaesthetics Consultant  
Derby Teaching Hospitals NHS Foundation Trust  
BADs council member

- Key elements of a day surgery pathway
- Patient suitability for day surgery
- Planning for successful day surgery

## 10.35 The importance of Pre-operative optimisation of patients to facilitate successful Day Surgery in urology

### Prof Scarlett McNally

Consultant Orthopaedic Surgeon, East Sussex Healthcare NHS Trust  
Deputy Director, Centre for Perioperative Care [www.cpoc.org.uk](http://www.cpoc.org.uk)  
Honorary Clinical Professor, Brighton and Sussex Medical School  
President, Medical Women's Federation

## 11.05 Reducing variation in urology day case rates. GIRFT update

### Mr John McGrath

Consultant Urologist  
Royal Devon University Healthcare NHS Foundation Trust  
Joint National Clinical Lead for Urology, GIRFT

11.25 Question and Answers

11.35 Comfort Break and Virtual Networking

## 11.45 Expanding and developing TURBT as a daycase pathway

### Miss Helena Burden

Consultant Urological Surgeon  
NBT Bladder Cancer Lead  
North Bristol NHS Trust

- TURBT is one of the commonest core urological procedures.
- Day case TURBT is achievable in a large majority of cases, with pathway planning and team involvement.
- Patients with bladder cancer unfortunately can have a high recurrence rate. Day case pathways reduce time spent in hospital, so minimising the impact of recurrences on their lives.
- Many bladder cancer patients are older and comorbid, there are multiple benefits for a day case pathway in this group.

## 12.15 Implementing a day surgery pathway for TURP. The Gloucester experience

### Mr Jeremy Nettleton

Consultant Urologist and Clinical Lead  
Gloucestershire Hospitals NHS Trust

## 12.45 TULA: Increasing day surgery rates by using laser for TURBT via flexible cystoscopy

### Mr Sachin Agrawal

Consultant Urological Surgeon  
Ashford and St Peter's Hospitals NHS Foundation Trust

13.15 Question and Answers

13.25 Comfort Break and Virtual Networking

## 13.55 Ureteric stone management to optimise day surgery success

### Mr Mike Henley

Urological Surgeon, Endourology and Fertility Specialist  
University Hospitals of Derby and Burton NHS Foundation Trust

## 14.15 Spinal anaesthesia for day case urology surgery

### Dr Kim Russon

Consultant Anaesthetist Clinical Lead for Day Surgery  
The Rotherham NHS Foundation Trust  
Immediate Past President, BADs British Association of Day Surgery

14.40 Question and Answers

14.50 Comfort Break and Virtual Networking

## 15.00 Implementing an outpatient treatment pathway and the role of specialist nurses with UroLift

### Mr Ananda Kumar Dhanasekaran

Urology Consultant  
Lead for BPH in Urology Clinical Networks  
Black Country Provider Collaborative  
Lead for Urology – MBChB program, Medical School  
University of Birmingham

## 15.30 Novel approaches to post operative urine retention management to retain same day discharge

### Ms Karen Harries

Day Surgery Nursing Lead  
King's College Hospital NHS Foundation Trust  
Honorary Secretary, BADs British Association of Day Surgery
